L By now the military is buzzy busy and the media is just going nuts!

An internal nuclearexplosion!

The gover ment is in control and the military is one step behind.

Yet Vircingetoris" mission is utter complete unannihable **SPYKILLS !**

He laughs endlessly from the chaos he is causing
Moving, shifting, phasing, meeting, all the underground over lords, getting known as on AKA, walking the paths, increasing respect.

Trouble is, the government and military are very powerful and the media has the people.

It's a question of substance and do you have enough of it?

In the glorious victorious after math of SUCCESS
Vircingetoris leans back and smokes a couple.
